Output Summary

Progress reports – Yes

Detailed and objective final report – N/A

Project method detailed – Limited

Performance to objectives detailed – Yes

Lessons learned identified – Yes

Policy/Regulation implications reviewed – N/A

Standard format NIA progress report available, including current performance against objectives and lessons learned.

Outcomes vs. Objectives/Targets

Objectives identified in progress report and project was on track with the trial setup as of July 2017.

Key Findings

- Recruitment of householders for the study was managed by the equipment suppliers using householders already purchasing the equipment, which proved successful.
- Remote monitoring equipment should be thoroughly tested prior to installation to avoid repeat visits.
